Grammar test: feedback guide

Organising your language study

Now that you have completed your grammar test, the next thing you will want to do is find out where you went wrong and what you can do to improve. This feedback sheet is designed to help you plan your language study.

The feedback guide on pages two/three groups the questions from the grammar test into key language areas, so that you can focus your revision and practice. It also gives you several sources for finding out about these areas and usually offers a variety of practice activities.

All of the book based materials indicated below are available on the third floor of the library.

The Tense Buster programmes can be found via links on the English LAB community or by clicking here: Tense Buster (on campus this will take you straight in – off campus you will need your BU login)
